For Children & Young People

ICOMP-International Council on Management of Population Programmes

ARROW - Asian-Pacific Resource & Research Centre for Women

We became part of the South Asian Project to share and learn from the same continent. We took our learning at a regional level.

Women and Health (WAH!) definition

Health is a Personal and Social state of balance and well-being in which a

woman feels strong, active, creative, wise and worthwhile; where her body's

vital power of functioning and healing is intact; where her diverse capacities

and rhythms are valued; where she may decide and choose, express herself

Early Childhood Care & Development Training, Malaysia '94

Child to Child workshop in Kenya

In 1993, a national level meeting was held at Bangalore, to launch WAH! (Women And Health). Women's Groups, Academics and Researchers working on women's issues came together to develop a comprehensive approach to WAH!, And formulate a definition for WAH! The strategy to implement WAH!was also designed."

and move freely.

Yuvati Shibir

"A Fair held in Gujarat for Adolescent Girls was an innovative approach to reaching out and inform them about women's health."

Health Awareness

Gender Equality, Peace & Development Conference, Beijing

After the International Conference on Population Development and the Gender, Equality, Peace & Development Conference in Beijing, the concept of Reproductive and Child health was promoted by Government of India with CHETNA as one of the key partners at the state level.

For women to empower themselves, they must harness their inner energies, to overcome patriarchal hypocrisy of the Dahleej.

A beginning has already been made through advocacy on women's comprehensive health* from the rights perspective.

The challenge is to remove the fear, shame and silence associated to women's sexuality and her status in the society, for better emotional and physical well being of women and society in general.

To meet the challenges of the changing social structure and globalization, women should be: Aware

Alert Analytical Active Assertive
