

## What women want: Midwives Voices Midwives Demands

**Period:** 20-7-2021 to 31-01-2022

**Location:** 10 Districts of Rajasthan State, India

CHETNA is a partner in this Global Campaign to support the endeavours of Government of India and recognise the contribution of midwives. This campaign is based on the topmost demand of over one million women from 11 countries across the globe. More than 145000 women asked for increased competent and better supported health care workers with nurses and midwives most often mentioned.

SuMa -Rajasthan White Ribbon Alliance, anchored by CHETNA coordinated the data collection in Rajasthan with partners Jatan, Navachar, CRPR, SSS-Ranoli, GUSS, SRPS, GRAVIS, NIRA, Prayas and CHETNA-Nandghar Project.

This campaign led by White Ribbon Alliance in partnership with the International Confederation of Midwives and in India by WRAI explores what midwives want and ways to support and strengthen midwives and midwifery-led care to deliver equitable, high quality, respectful and dignified maternal newborn care and in turn contribute towards positive maternal and child health outcomes.

**Activities:**

- Orientation and hand holding of partners on Data Collection
- Collection of Demands from Midwives/Nurses through hybrid mode
- Translation and submission of Demands

**Result:** Demands of 2500 Midwives/Nurses have been submitted for the national and global report
